WAR

Is Looked for By the Boers.

Hostilities Can Scarcely Be Averted.

The Matabele are Becoming Impatient and Restless.

By Associated Press to the Journal. LONDON, Aug. 31.—The Pretoria correspondent of the Morning Post says: The Boer officials, after reading the cable reports of Mr. Chamberlain's Birmingham speech, consider that war is inevitable. The speech has undoubtedly inflamed the war spirit here. The Boers are now all armed, except those in Johannesburg. Their commissariat is fairly good. All the forts are amply victualled. President Kruger does not hesitate to express the view that war is almost inevitable. He has stocked the presidency with ample supplies of provisions to secure his own person from privation, and he is often heard repeating the eighty-third psalm.

THE TRANSVAAL.

Kruger's Cabinet Beyond His Control. SEATTLE, Aug. 31.—David L. Wilson, who claims to be an agent of the British government and to have important papers for the home office, has arrived here enroute to London from the Transvaal. Mr. Wilson says he has no doubt that there will be a war.

"I have been three years in the Transvaal, and know the leaders of the Boer government well. President Kruger does not want war. He is now an old and infirm man. As such he has not the control of the cabinet that he had once. Cabinet is composed of young blood, who want independence and who, I may say, will never give up until they have either attained it or been wiped out of existence by the English forces. The story sent out that General Joubert has found that the reserve shells in the Pretoria forts are ineffective is probably true. A partial knowledge of this fact has been known for some time in British military circles. There will be no trouble in replacing the ammunition, however."

General Joubert, I know personally, is opposed to war. He will lead the Boer forces when war comes. He is a fighter, a man of courage, and will surely be a sacrifice to his ambition. When the blow is struck it will be a fatal one in the Transvaal. The British have for months been massing troops, and are practically ready at this time, if necessity demanded immediate action."

Mr. Wilson takes issue with the suggestion that Hon. Joseph Chamberlain is in any way responsible for the trouble. Similar Case to Dreyfus. CHICAGO, Aug. 31.—Frank P. Blair, counsel for Captain O. M. Carter, of the United States engineer corps in the court-martial which convicted that officer of robbing the government and sentenced him to dismissal from the army, for a term of five years in the penitentiary, and to pay a fine of \$10,000, has received a brief prepared for his

The Charleston Lands Marines to Protect Cebu.

By Associated Press to the Journal. MANILA, Aug. 31.—Dispatches from Cebu announce that American troops under Col. Hayles, with two field pieces on Monday sallied into the hills against a band of natives who recently ambushed the four American soldiers and who had been generally troublesome. The Americans found the natives entrenched and drove them further into the hills. No casualties on American side though there were some heavy prostrations. The native loss is not known. The cruiser Charleston landed men, who guarded the city during the absence of the troops. The Fourth infantry having prepared to give the insurgents a warm reception the latter have ceased their attack on Iloilo.
